PROFESSIONAL EXPERIENCE

Northern Trust, Chicago, IL **May 2022 – Present**
Senior Software Engineer

- Led the modernization of a legacy wire transfer platform processing hundreds of millions of dollars daily, rebuilding it as a React/TypeScript/Node.js microfrontend within a larger enterprise architecture, enabling independent deployments without monolithic releases
- Architected and shipped a greenfield portfolio risk management app in React and TypeScript, working directly with business stakeholders to translate complex financial requirements into a scalable product
- Collaborated with designers to build a shared React component library adopted across multiple teams, defining reusable UI patterns and user flow standards that reduced duplication and accelerated delivery
- Designed and maintained CI/CD pipelines (GitHub Actions, GitLab CI/CD) for front-end and back-end services, improving release reliability and reducing deployment friction
- Integrated AI-assisted development workflows using Claude Code and GitHub Copilot to accelerate prototyping, test creation, code review, and feature iteration across projects

Roos Instruments, Santa Clara, CA **Dec 2018 – Feb 2020**
Software Engineer

- Built the React-based front-end interface for the Cassini RF test system, enabling hardware engineers to configure and monitor semiconductor testing workflows in real time
- Modernized legacy web components and streamlined the deployment pipeline, cutting deployment times by 50%

EDUCATION

Santa Clara University **Sep 2018 – Jun 2021**
B.S. in Computer Science — Completed in 3 Years

- Coursework: Algorithms, Data Structures, Operating Systems, Data Science, Software Design & Management

SKILLS

- Languages & Frameworks: TypeScript, JavaScript, React, Next.js, Node.js, HTML, CSS Modules, Sass, Go, Python, Swift, SQL
- Tools & Infrastructure: Vite, esbuild, Bun, Webpack, NGINX, Docker, Storybook, GitHub Actions, GitLab CI/CD, Vercel, npm publishing, npm workspaces, microfrontends, single-spa
- AI Development: Claude Code, GitHub Copilot, LLM-assisted prototyping, test generation, and code review
- Design: Figma, Adobe Creative Suite (Photoshop, Illustrator, XD), Sketch
